Here Comes the Serious Bit

The Long Blondes

Your friend's a genius
She even made up
The spare room bed for us.
But I can't stay here indefinitely
I've definitely got somewhere else
I'd rather be.
And that's the thing I haven't told you yet...Here it comes, here it comes
here comes the serious bit
here comes the serious bitYour friends say we have fun
And film stars they have fun
I'd like to just for once
But the Marquis de Sade had it hard
And even Cleopatra found it unnatural sometimes
And that's the thing I haven't told you yet...Here it comes, here it comes
here comes the serious bit
here comes the serious bit
