

Too Bad

[Patty Larkin](#)

Too bad that we
Never got over ourselves
Too bad that we
Never got a hold of ourselves If wings were made for people
We would fly away together
We would fly away down the boulevard If wings were made for people
No need to run for cover
We would fly away down the boulevard Too bad that we
Never got a chance to believe
Too bad that you
Never got easy to leave If wings were made for people
We would fly away together
We would fly away down the boulevard If wings were made for people
No need to run for cover
We would fly way down the boulevard Too bad that we
Never got to ring all the bells
Too bad that we
Never got over ourselves If wings were made for people
We would fly away together
We would fly away down the boulevard If wings were made for people
No need to run for cover
We would fly away down the boulevard Too bad, too bad
It's just too bad
