

# I Love You

Donna Summer

Well he searched and searched for nights and days  
Till he found the one he loved  
And he wrapped her in his arms again  
And then he thanked the stars above  
That he found who he'd been looking for  
And he stared her in the eyes  
He said, "I love you"  
He said, "I love you"  
She stared him right back in the eyes  
With a look of disbelief  
Then she gazed off into somewhere else  
Was it real or just a dream?  
And she pulled him, oh so close to her  
And she whispered in his ear  
She said, "I love you"

Yes, I really do"  
They said, "I love you"  
Yes, I do"  
So together they will always be  
Until the stars fall from the sky  
So if you find someone you love a lot  
You must never let them go  
You just hold on tight with all your might  
And you say three little words  
You say, "I love you"  
You say, "I love you"  
You say, "I love you"  
You say, "I love you"  
You say, "I love you"  
You say, "I love you"
