Wide Open Road

The Triffids

Well the drums rolled off in my forehead
and the guns went off in my chest
Remember carrying the baby for you
Crying in the wildernessI lost track of my friends, I lost my kin
I cut them off as limbs
I drove out over the flatlands
hunting down you and himThe sky was big and empty
My chest filled to explode
I yelled my insides out at the sun
At the wide open road
it's a wide open road, it's a wide open roadHow do you think it feels
sleeping by yourself?
when the one you love, the one you love
is with someone elseThen it's a wide open road
It's a wide open road
And now you can go any place
that you ever wanted to go
I wake up in the morning
thinking I'm still by your side
I reach out just to touch you
then I realiseIt's a wide open road
It's a wide open road
