Rapture

Deftones

Two different sides
The same kind of thread
Different needle
Sewn on, hey, hey, hey
It's a rapture
But it's a different style
It's a rapture
The same kind of thread
Go ahead
I can't
I can't feel like
I can't diffuse
It feels like
What's inside of me?
I will curse you out from me
It's just two different tools, different pieces
Can't choose one with power
I know where you are now
You twist everything else around
Now you *** with me
It's a waste of time
You said you won't again, you swear to God
You said, ?I swear to God, I don't want it again?
You said you swear to God, I don't want it again
You said, ?I don't want it again? and you swear to God
Instead, you just waste
Waste, waste my time
Instead you just waste
Waste my time
What takes it away?
I'm the one man suffering
It's just two different views, different pieces
Can't choose one with power
I know where you are now
You twist everything else around
Now you *** with me
Ah, *** waste of, waste
I can't
I can't feel like

I can't diffuse
It feels like
You said, ?I swear to God, don't want it again?
You said don't want it again, you swear to God
You said, ?I swear to God, I don't want it again?
You said, ?I don't want it again? and you swear to God
Instead, you just waste
Waste, waste my time
Instead you just waste
Waste, waste my time
Two different sides
The same kind of thread
Just different needles
A whole world, hey
It's a rapture
But it's a different style
It's a rapture
The same kind of thread
