

Go

Def Leppard

This is a truth that just, has to be told and must
Be spread amongst us, so the world can hear it
We gotta get it right, this time if we just fight
Innocents starve tonight, if we can't heal it
We look to our leaders but the lies they try to feed us
Like a knife they try to bleed us and they cut us real slow
So go, just go, just go
You hide behind your mask of desperation
Go, just go, just go
I won't surrender to the next temptation
You have no dignity, I have no sympathy
You are my enemy but I can't see you
No matter where you run, thy kingdom will be done
A rocket to the sun, is where I see you
When the senses get ecstatic, overflow is automatic
Feel the need to feel erratic, don't deny and let it all
Go, just go, just go
You hide behind your mask of desperation
Go, just go, just go
I won't surrender to this fake salvation
We look to our leaders but the lies they try to feed us
Like a knife they try to bleed us and they cut us real slow
So go, just go, just go
You hide behind your mask of desperation
Go, just go, just go
I won't surrender to the next temptation
Go, just go, just go
