

# Voices In The Dark

## Pallas

There's voices here in the dark  
I have to beat them before it gets dark  
I hear them now it's true  
They're coming even out of you  
I just have to pretend that they're not there  
But I'm never gonna go anywhere  
I even know they're there  
I don't care ha ha ha ha ha ha ha ha ha...  
I can't say as I never heard them before
