

# Betrayed Me

[Adema](#)

I watched you change and never  
That you would be like all the rest  
You were so true to good to be true  
I trusted you and feel apart again I can not change the fact  
That your not coming back  
So depressed I'm your slave Betrayed me your not the one  
To be trusted with my love  
Betrayed me your not the one  
Who should be trusted with my love I had to leave so I could breath  
I hate to fight that's not what I want  
You were so true to good to be true  
I trusted you and feel apart again
