Moonlight Dancing

The Pointer Sisters

How 'bout a little bit, a little bit of moonlight dancin'
Underneath the starry sky?
How 'bout a little bit, a little bit of moonlight dancin'?
Just the moon and you and I, just the moon and you and I
Moonlight dancin', moonlight dancin'How 'bout a little bit, a little bit of late night romance
Underneath the starry sky?
How 'bout a little bit, a little bit of late night romance?
Just the moon and you and I, just the moon and you and I
Moonlight dancin', moonlight dancin'Oh, nobody's gonna be there oh, so don't you wanna go where
We could dance across the sky leave the world behind us?
Nothin' that we couldn't do yeah, we could dance across the sky
Leave the world behind us just the moon and me and you
Just the moon and me and youWe could hide inside the rhythm 'til the morning finds us
Share a little ecstasy yeah, we could hide inside the rhythm
'Til the morning finds us if you come away with me
I'll show you how it feels to be moonlight dancin', moonlight dancin'Oh, you gonna sail the wind
Oh, so don't you wanna begin?
Moonlight dancing, moonlight dancingHow 'bout a little bit, a little bit?
How 'bout a little bit, a little bit of moonlight dancin'?
Just the moon and you and I
Moonlight dancin, moonlight dancingMoonlight, moonlight, moonlight
