

# Goodbye Waves And Driveways

## The Rocket Summer

Just, walk away  
And gather your thoughts for the second wave  
Of this argument  
On this epic changing day  
It's crazy to think that an hour ago all things were great.

But we stand here  
Both proud both wrong and right  
Throwing cheap shots  
In this stubborn fight  
And our lives are so intertwined and one  
But we're just so stuck in this moment and it's clear that we're coming undone

And you see it's hard for me to breath  
When I got all worked up with these feelings  
And I don't know exactly how it is  
But we can be so mad we consider it to not exist  
But we both know that there's so much love clenched within our fists

The goodbye waves, in the driveway  
Just resonate  
And, yes, I'm throwing it right back at her  
While we're drowning in rivers from our face  
As we just want to know "if this, is this, over"  
A trembling silence fills the air  
As we stand here  
So impaired  
But so aware

Sit in this house  
Alone with fresh photographs  
And I just can't relax  
Cigarette smoke  
I'm starting to choke on this  
And half of my soul is on the road in a car with the girl in a dress

And see it's making it hard for me to breath  
When I got all worked up with these feelings  
And I don't know exactly how it is

Just to say you're right, you're wrong, we both lose to it

The goodbye waves, in the driveway  
Just resonate  
And, yes, I'm throwing it right back at her  
While we're drowning in rivers from our face  
As we just want to know "if this, is this, over"  
A trembling silence fills the air  
As we stand here (oh whoa)

So hey now  
Maybe we're being stupid  
Maybe we're being dumb  
Maybe it's time that we stopped and we realize  
That fighting will win  
We are one  
How at first it's pure and lovely  
The battle can be torn to shreds

With time and with patience  
And with love and affection  
Can beat this with needles and thread

Because I love you  
And do you love me?  
And nothing will make that sway  
I said I love you  
And do you love me?  
And nothing will make, could make, could make, could make it sway  
So remember me  
(Yeah)  
Remember me  
(Yeah)  
Remember me

But don't walk away
