

Burning Lafayette

Hell Is For Heroes

Always, always burning
Always, always burning
Always, always burning
Always, always burning Watch out birthdays can kill
Scar laden wounds
That time won't heal
His eyes still shine like gold Fall in with the forced perspective
Information pre-selected
Waiting for the final verdict
Questions muted answers loaded Condemned by innocence
Condemned because he knew too much
Birthdays come round to haunt Victims with a guilty conscience
Flashing cameras snap like vultures
Preying on the innocent
Corrupt officials craving power Organize controlled disorder
Justice hiding in the corner
Waiting for the final verdict
Sentence passed, case is closed Swallow line by line the script fed
From official sources
Experts without knowledge
Take the stand Victims with a guilty conscience
Flashing cameras snap like vultures
Preying on the innocent
Corrupt officials craving power Deflect attention from the questions
Quick convictions get promotions
Waiting for the final verdict
Sentence passed, case is closed
