

Lady Red Light

Great White

Deep in the night, alone in the dark
I get a need for you
In a hotel room I remember the way
How we do what we do
Too long without your touch
Too long without your love
My lady of lights
I'm coming over for you
I'll call you lover, I'll call you friend
But when I need another
She's got a heart
A heart to lend
Lady Red Light, rock me tonight
Baby's got a way to make it alright
Lady Red Light, rock me tonight
She knows how to move me
My Lady Red Light, Lady Red Light, lady
A shadow of light waiting in time
Well really no need to be cold and alone
I've made up my mind who I need to see
I'll call you lover, I'll call you friend
But when I need another
She's got a heart
A heart to lend
Lady Red Light, rock me tonight
Baby's got a way to make it alright
Lady Red Light, rock me tonight
She knows how to move me
Lady Red Light, rock me tonight
Baby's got a way and I'm felling alright
Lady Red Light, rock me tonight
She knows how to move me
Lady Red Light
Red Light, rock me tonight
Baby's got a way to make it alright
Lady Red Light, rock me tonight
She knows how to move me
Lady Red Light, rock me tonight
Baby's got a way to make it alright

Lady Red Light, rock me tonight
She really knows how to move me, yeah
Well Lady Red Light, Lady Red Light
She knows how to move me
She knows how to move me
