

Sweet Maxine

The Doobie Brothers

She can capture your heart
When they start the music playin'
Sparkle in her eyes, you better be wise
Or you will end up losin' your mind I said baby, pretty baby
Got to get my hands on you Somethin' is got a hold on, somethin' is got a hold on me
Somethin' is got a hold on, somethin' is got a hold on me
She was born with it in her soul, Lord she knows how to rock and roll
She was born with it in her soul, Lord she knows how to rock and roll She's the answer to a poor boy's dream
Never seen such a sweet young thing
She's a teaser, love to squeeze her
An actress from a fantasy scene I said baby, pretty baby
Open your eyes to the truth Somethin' is got a hold on, somethin' is got a hold on me
Somethin' is got a hold on, somethin' is got a hold on me
She was born with it in her soul, Lord she knows how to rock and roll
She was born with it in her soul, Lord she knows how to rock and roll She's got the power, power in her soul
She's got the power, power, rock and roll
She's got the power, power in her soul
She's got the power, power, rock and roll She was born with it in her soul, Lord she knows how to rock and roll
She was born with it in her soul, Lord she knows how to rock and roll
She was born with it in her soul, Lord she knows how to rock and roll
