

# Flip the Lever

## Driftless Pony Club

i pulled the noose and i wrote my mother  
she said son, just hold it together  
this whole scheme is part of you  
and it makes us feel like were all brothers

so flip the switch, and pull the lever  
leave the spark that will change the weather  
bar the shit, that will make you happen  
tilt the earth, in my direction

to much, isolation  
makes us adult creation  
everyone, recall the maker  
making me count for his behavior

to much, isolation  
makes us adult creation  
everyone, recall the maker  
making me count for his behavior

were gonna make, the daytime longer  
melt the snow, into water

plastic shoes, on the windows  
why don't we sing the clause

are we ever, going to haven  
or are we stuck mere, never leaving

so, pull the switch, flip the lever  
leave the spark that will change the weather

to much, isolation  
makes us adult creation  
everyone, recall the maker  
making me count for his behavior

to much, isolation  
makes us adult creation  
everyone, recall the maker

making me count for his behavior

[end]
