

Make A Move

Royal Tailor

Mr. Good Intentions, so much I wanna do
My mouth just keeps on running, but I never follow through
I heard that true religion, is love with hands and feet
I wanna find my own way to reach a world in need Yeah, I've been captured by the unimportant
Locked in, and now it's time to break free Chorus
There's more to life
Open my eyes
Someone is needing You
So I gotta make a move
What good are words
When this world hurts
Real faith will come through
When I make a move We don't need permission, to go outside of these doors
And dream some crazy dream no one else has dreamed before
To show love and compassion
Whatever way it may be
To put faith into action, do more than just believe We are hope to those who have been broken
We were made to make a difference Chorus
There's more to life
Open my eyes
Someone is needing You
So I gotta make a move
What good are words
When this world hurts
Real faith will come through
When I make a move I've been captured by the unimportant
Locked in and now its time to break free
Now its time to break free Chorus
There's more to life
Open my eyes
Someone is needing You
So I gotta make a move
What good are words
When this world hurts
Real faith will come through
When I make a move When I make a move
When I make a move
