M.A.D.

Hadouken!

We drop beats
That'll crack your craniumBring it on
You can bang the drum
You can bang the drum
You can bang the drum
You can bang the drumBring it on
You can bang the drum
You can bang the drumWe will play along
We will play alongPop goes the pot, it's pandemonium
Poison the sushi with plutonium
We eat enriched uranium
We drop beats that'll crack your craniumWe call shots and the beats are rolling on
When the beats drop, you'll get hold of 'em
Solder them and we about to blow
With a fuck you, fuck you [unverified] a comium(You wanna go, son)
You wanna go, son
You wanna spar(You wanna go, son)
We can bang the drum at your door(You wanna go, son)
You wanna go, son
You wanna spar(You wanna go son)
We can bang the drum at your doorBring it on
You can bang the drum
You can bang the drum
You can bang the drum
You can bang the drumBring it on
You can bang the drum
You can bang the drumWe will play along
We will play alongWhat've we started here
What've we done, the outcome is always clear
The path chosen, surely assured
Now what are you waiting for?Bring it on
You can bang the drum
You can bang the drum
You can bang the drum
You can bang the drumBring it on
You can bang the drum
You can bang the drumWe will play along
We will play alongBring it on
You can bang the drum

You can bang the drumBring it on
You can bang the drum
You can bang the drumBring it on
You can bang the drum
You can bang the drumWe will play along
We will play along
