

Come Here

J. Holiday

Aye girl, how you doin'? What your name is?
Lookin' like a model of somebody famous
Where's that, that you came with?
If you here alone, baby
We gon' have to change this, change this
'Cause you sexy then a mother
To get to know you, girl, I really love to
Tonight get to show you a good time
And get it crackin' with a slow grind
Shawty, you look sexy as hell and now you
You don't know what it does to me
I'll put my hand right here, grab your right there
Baby, don't be scared, come on
Come here, come here
I know you wanna come closer
Come here, come here
I want you closer and closer
Got me feelin' this as we're bumping and
To some R Kelly
And I'm feelin' good 'cause you're breakin' it down
Like you don't know who you really messin' with
I wanna pull you close to me
Put my hands on your
I wanna show you a good time
And pop it off with a
Now you
You don't know what it does to me
I'll put my hand right here, grab your right there
Baby, don't be scared, come on
Come here, come here

I know you wanna come closer
Come here, come here
I want you closer and closer
This is for all my sexy ladies
I've been watchin' you, baby
And I really wanna dance with you
And you, and you, and you, and you too
So many here for me to choose from

It's hard for me to choose one
You don't know what it does to me, yeah
But I choose you, baby, you, baby
Shawty, you look sexy as hell and now you
You don't know what it does to me
I'll put my hand right here, grab your right there
Baby, don't be scared, come on
Come here, come here
I know you wanna come closer
Come here, come here
I want you closer and closer
Shawty, you look sexy as hell and now you
You don't know what it does to me
I'll put my hand right here, grab your right there
Baby, don't be scared, come on
Come here, come here
I know you wanna come closer
Come here, come here
I want you closer and closer
Oh baby, oh baby, come on
