

# Woodburning

## Toad The Wet Sprocket

Say what you need I kick you down  
No I'm fine And don't you hang around  
And I find myself Here in another home  
Where everything moves so Slow So tired Take the longest day  
Throw it all away  
I can't stand it  
But I can't do anything Every day's the same  
Nothing ever change  
I can't stand it  
But I can't do anything You should know by now  
We're all liars  
Take me where you go  
Only higher Take the longest day  
Waste it all away  
I can't stand it  
But I can't do anything Everyday's the same  
Nothing ever change  
I can't stand it  
But I can't do anything  
Can't do anything Anything you want, anything you want, anything Take the longest day  
Throw it all away  
I can't stand it  
But I can't do anything Everyday's the same  
Nothing ever change  
I can't stand it  
But I can't do anything  
Can't do anything Here in another home  
Where everything moves so slow So tired
