

# Seed

## Abandoned Pools

Hey, you know I really liked your show  
And hey, I know a place where we could go  
And you don't have to do this if it's all you want is love  
But hey, I know you really wanna go  
How you wanna do this baby?

How you wanna go?  
Fill up my emptiness it's you I wanna know  
He's just a boy with a nasty seed to sew  
There's no more grace to fall from  
There's no where left to go but down
