

# 24 Story Love Affair

## Faber Drive

When I met you you told me, to forget you, you're way out of my league. But it happened, couldn't I see, a disaster was ready to be unleashed. Tryin' to climb the ladder but I'm handcuffed to the bottom, need to use the keys but you're the only one who's got 'em. I know the end is coming. I should've started runnin'. A 24 story love affair. With me down here and you up there. I know it's all but over, I wish the last kiss would have lasted longer. A 24 story love affair. With me down here and you up there. With me down here and you up there. You were towering above me, started climbing and never thought it through. You warned me, should have listened. Now I'm sorry that I ever met you too. Tryin' to climb the ladder but I'm handcuffed to the bottom, need to use the keys but you're the only one who's got 'em I know the end is comin'. I should've started runnin'. A 24 story love affair with me down here and you up there. I know it's all but over, I wish the last kiss would have lasted longer. A 24 story love affair. With me down here and you up there. My fingers are numb from holding on. I'm climbing a building like King Kong. Feel like I've been shot down all day long, but I'm holding on. I know the end is comin'. So scared of her it's numbing, 24 story love affair with me down here and you up there. With me down here and you up there. I know the end is comin'. I should've started runnin'. A 24 story love affair with me down here and you up there. I know it's all but over, I wish the last kiss would have lasted longer. A 24 story love affair. With me down here and you up there. 24 story love affair with me down here and you up there.
