

Lights & Music - Boys Noize Remix

Cut Copy

This is why we won't delay for your birthday
the secrets that we held that day will be kept straight
all your friends have gone away so let's celebrate
you're holding hope open for the one making you wait
This is what you hoped to say on your birthday
the secrets that we held that day will be kept straight
everyone will be dismayed if your promise breaks
but you'll be back again to say who you want next
lights and music
are on my mind
be my baby
one more time
lights and music
are on my mind
be my baby
one more time
fading with the colour you see in my face
cold and crystal you can't hide as your tears race
i'll be waiting by in time but your dream's away
you're holding hope open for the one making you wait
lights and music
are on my mind
be my baby
one more time
lights and music
are on my mind
be my baby
one more time
