

# Gasoline

## DecembeRadio

I got a remedy, it ain't no cup of tea  
Can't find it in a pharmacy  
A super battery, big ball of energy  
A new revival that's fillin me upLike gasoline burning out of control  
Heavens love machine is taking over my soul  
Like gasoline burning out of control  
Heavens love machine is taking over my soulI got an appetite, I just think I might  
Blow my top like dynamite  
I'm glad I saw the light, Hank Williams got it right  
I got revival and its fillin me upLike gasoline burning out of control  
Heavens love machine is taking over my soul  
Like gasoline burning out of control  
Heavens love machine is taking over my soul, yeahAh, gasoline  
Ah, gasoline  
Ah, gasolineLike gasoline burning out of control  
Heavens love machine is taking over my soul  
Like gasoline burning out of control  
Heavens love machine is taking over my soulGasoline  
Gasoline  
Gasoline  
Gasoline
