Bell

Fred Eaglesmith

Don't ring that bell
Don't sound that alarm
It's way too late
She already gone
She broke my heart
And there ain't no doubt
There ain't nobody
Puttin this fire outDon't break that glass
Don't run that line
I'm rainin rain
On timeless time
She's gone forever
It's what it's all about
There ain't nobody
Puttin this fire outYou run around
You yell and scream
But it's lipstick, lies
And gasolineDon't ring that bell
Don't sound that alarm
My world's crashed
Right through the floor
Everything i had
Well it just went south
And there ain't nobody
Puttin this fire outThere ain't nobody
There ain't nobody
There ain't nobody
There ain't nobodyDon't ring that bell
