Still With You

Ryeowook

Heaven knows what you've been through
So much pain
Even though you can't see me
I'm not far away
We always say if one of us
Somehow went away
We'd light a candle and say a prayer
Know that love still remains
Close your eyes, go to sleep
Know my love is all around you
Dream in peace, when you wake
You will know I'm still with you
Live your life from this day on
And love again
I know you'd do the same for me

That's the way that loves is supposed to be
Close your eyes, go to sleep
Know my love is all around you
Dream in peace, when you wake
You will know I'm still with you
When you feel those lonely teardrops
Rolling down your face
Just know my love watches over you
Always, always
Close your eyes, go to sleep
Know my love is all around you
Dream in peace, when you wake
You will know I'm still with you
I'm still with you
