

Night Of The Nights

[Kovacs](#)

I am more than an addiction
Won't risk my heart to a battle
Strong like a cobweb in the wind
Im hanging downward
The most
somehow believed in
A mental maze
A million dollars
Cold bodies
Whiskey on ice
You've been cheating me
Right
Night of the nights
Some-thing filled me with lights
Dark-ness, now I need love, love
Silence
Silence and hell
From the night that's sour But you did that yourself
And hold tight in strong winds
You sing silently of hard times
Great hearts and charity crimes
I want none of your deceptions
Except I remain hanging down with the moss
All your directions pulls me close Night of the nights
Some-thing fill me with lights
Dark-ness, now I need love, love
Silence, silence and hell
From the night that's sour
Night of the nights
Something fill me with lights
Darkness, I need love, love
Silence, silence and hell
From the night that's sour
From the night that's sour
