

# You Were Right (Demo)

## Old 97's

Outside the cool world is raging  
Inside it's cold and it's dark  
The walls in this place are like canvas  
None of these deadbeats here work  
All the way back in April  
The year of our lord '86  
I broke a switch on the light bulb  
I ain't been quite the same since  
Voice in my head says it's best not said  
Wondering how much of it's true  
You were right, I'm wrong for you x2  
Outside the choppers are hovering  
Outside the dogs have been loosed  
The theme of this party's still hanging  
One prop they brought was a noose  
And outside the cool world is raging  
But inside it's over by ten  
If I had friends they'd be here right now  
I'd give my eye teeth for friends  
And sooner or later it's bound to get better  
Sooner or later won't do
