

# Bring Your Arms

## Kate Pierson

Head down baby don't make a sound  
Watch out now run, run, run  
Get wise don't shut your eyes  
Keep still run, run, run  
Cause you are running with a lightbulb  
Yes you are running with a lightbulb  
I'm on a trek through the tortoise head  
I'm transmitting what a trip  
Carrying the cries of the caught and carved  
Bring some help  
Bring some help  
Bring your arms  
I'm on a trek through the tortoise head  
I'm transmitting what a trip  
Carrying the cries of the caught and carved  
Bring some help  
Bring some help  
Bring your arms  
Come now follow me underground  
Let's run, run, run  
Break free just you know you can trust me  
Join hands let's run, run, run  
And we are running with a lightbulb  
Yes we are running with a lightbulb  
I'm on a trek through the tortoise head  
I'm transmitting what a trip  
Carrying the cries of the caught and carved  
Bring some help  
Bring some help  
Bring your arms  
I'm on a trek through the tortoise head  
I'm transmitting what a trip  
Carrying the cries of the caught and carved  
Bring some help  
Bring some help  
Bring your arms  
And we are running with a lightbulb  
Yes we are running with a lightbulb  
I'm on a trek through the tortoise head

I'm transmitting what a trip  
Carrying the cries of the caught and carved  
    Bring some help  
    Bring some help  
    Bring your arms  
I'm on a trek through the tortoise head  
I'm transmitting what a trip  
Carrying the cries of the caught and carved  
    Bring some help  
    Bring some help  
    Bring your arms
