

Shot of Gold

Aliotta Haynes Jeremiah

Shot of Gold

Well if you could've seen me making last nights rounds
You would've seen a sorry, sorry sight
Just a stoned in fool, passing judgement from a stool
With a shot of gold, a quarter to make it right

Chorus;

A shot of gold, JosÃ© behind the bar
A woman next to me I used to know
It's a shot of gold, it's just like a shining star
Shot of gold at the end of my rainbow
Is gonna take me just about anywhere I wanna go

If you, could've heard all the words that I said
I swear you wouldn't have heard a thing
'Cept what a bad way of living and what it can do for your head
And the peace that a shot of gold can bring

Chorus;

A shot of gold, JosÃ© behind the bar
A woman next to me I used to know
It's that shot of gold, it's just like a shining star
Shot of gold at the end of my rainbow
Is gonna take me just about anywhere I wanna go

(instrumental)

And if you could've known, all the thoughts in my head
I swear you wouldn't know everything
When the trust is gone and the feeling is dead
And then it's time for a drink

Chorus;

From that shot of gold, JosÃ© behind the bar
A woman next to me I used to know
It's that shot of gold, it's just like a shining star
Shot of gold at the end of my rainbow
Is gonna take me just about anywhere I wanna go

A shot of gold, JosÃ© behind the bar
A woman next to me I used to know
It's a shot of gold, it's just like a shining star
Shot of gold at the end of my rainbow
Is gonna take me just about anywhere I wanna go

A shot of gold, hey JosÃ© behind the bar
A woman next to me I used to know
It's a shot of gold, it's just like a shining star
Shot of gold at the end of my rainbow
Is gonna take me just about anywhere I wanna go
(fade out)
