

Perfect

Stabbing Westward

Lately, I've noticed how much you've changed
Even though you swear you're same
So, why do I feel a million miles away?
And why do I feel like we're broken? Why can't it be perfect like it used to be?
Why can't it be perfect?
Why can't it be perfect like it used to be?
Why can't it be perfects? Perfect, is how I once described our love
But that was before we fell apart
So, why do I feel a million miles away?
And why do I feel like we're broken? Why can't we be perfect like we used to be?
Why can't we be perfects?
Why can't we be perfect like we used to be?
Why can't we be perfects? It used to be perfect
It used to be perfect
It used to be perfect
It used to be perfect Lately, I've noticed how much you've changed
Even though you swear you're the same Why can't we be perfect like we used to be?
Why can't we be perfects?
Why can't we be perfect like we used to be?
Why can't we be perfects? It used to be perfect
It used to be perfect
It used to be perfect
It used to be perfect, ohh
It used to be perfect, yea
It used to be perfect
It used to be perfect, yea
It used to be perfect
It used to be perfect
It used to be perfect
