

Shadows In the Dark

[Nick Wilson](#)

Don't make a sound, I just want to see you staring back at me
Wipe that frown, cause you make me everything I want to be
Nothing will bring me down now

How can I be reserved? You cast a light making shadows in the dark
I wish you'd see it through mine instead of using your own eyes
Fold this perfection

Stand your ground, cause I cannot stand to see you pushed around
You may feel like your surrounded, but you're strong enough to push those demons down
Nothing will bring you down now

How can I be reserved? You cast a light making shadows in the dark
I wish you'd see it through mine instead of using your own eyes
Fold this perfection

How can I be reserved? You cast a light making shadows in the dark
I wish you'd see it through mine instead of using your own eyes
Foldless perfection

You are foldless perfection darling
