

Being In Love With You

Big Daddy Weave

Lately I've been busy thinking
And this is what's been on my mind
It seems like all I do is work for You, Lord
But I feel empty on the inside I know that work is an important part
Oh but this is also true
My dilemma is an issue of the heart
When I try to live for you without you I don't need to try to be
The flawless example
Lifted up for everyone to see
I don't need to stand and shout it
"Hey I've got the answer!"
If your presence is living in me
I won't need to talk about it
In a church committee
For the world to know the truth
All I need to do is just be me
Being in love with you I've been spending all my time
And all my efforts trying
To make you proud of what you see
But to my great surprise
I have realized
Nothing that I do can change your love for me
