Away

Disbelief

now - now - now
now i'm looking backfear of life, in my head I grow
lost it all, dreams they waitnow - now - now
now I can't crasp itthe tears will try
try to hide
to help meaway - away - away
now you're so far away
so far awaycan I have confidence in love
all I gave is not enough
the hour feel the time
no hope
now I'm still alivenow - now - now
all is drifting awaytears will try
try to hide
to help me by mysideaway - away - away
now you're so far away
so far awaynow I've doubts
if the needs for safety
emotions fly
pay living them
is not enough
be hidden feelings shown reserved
trust eat them
use of confidence
