

# Away

## Disbelief

now - now - now  
now i'm looking backfear of life, in my head I grow  
lost it all, dreams they waitnow - now - now  
now I can't crasp itthe tears will try  
try to hide  
to help meaway - away - away  
now you're so far away  
so far awaycan I have confidence in love  
all I gave is not enough  
the hour feel the time  
no hope  
now I'm still alivenow - now - now  
all is drifting awaytears will try  
try to hide  
to help me by mysideaway - away - away  
now you're so far away  
so far awaynow I've doubts  
if the needs for safety  
emotions fly  
pay living them  
is not enough  
be hidden feelings shown reserved  
trust eat them  
use of confidence
