

# lonely town

## Iordache

Spin the globe, stop and start  
Come to a place that's torn apart  
Here's a secret, it's my heart  
Oh well, it's only  
Broken shutters, whistling wind  
Vultures circling overhead  
Tumbleweeds fly, dust in my eyes  
Guess, it's not my feelings crying  
Peeling paint on empty homes  
Where people lived in this town long ago  
Pack their bags, nail down the door  
To Lonely Town  
Oh, I once had a love of my life  
The sun of my soul  
But I took him for granted, ignored all the signs  
And now it's just memories and passing ghosts  
Spider webs and weeds waist high  
Abandoned schoolyards and rusted wire  
Looking for love, looking for life  
In Lonely Town  
If you're lucky with a love of your own  
Remember this in a nutshell and I've told  
Hold them close and don't let go  
And cherish forevermore  
Or you will live in Lonely Town
