

# Change

Sarah Connor

[Verse 1] I just wanna give you something you can talk about  
Although it's kind of controversial, betcha think about  
You're looking fine, it's kind of strange  
Sometimes you really dream of a change  
All the talk about a perfect look just brings you down  
'Cause you believe who's got an inner beauty wears the crown  
Make up your mind and break those chains  
Sometimes you gotta go for a change  
[Chorus] If your baby's gone with somebody else  
Ch ch change  
If you suga's gotcha foolin' yourself  
Ch ch change  
If you life is kind of strange, get up and rearrange  
Make a change, change, change  
Make a change  
[Verse 2] Now you see you gotta do something to get it on  
Only nothing comes from nothing, this is goin' on  
Wake up and move, don't be ashamed  
There'll be no better time for a change  
Don't care if other people tell you what to do  
The only one who knows about you will be always you  
Start to complain, don't stay the same  
I bet nobody helps you to change  
[Chorus 2] If your baby's gone with somebody else  
Ch ch change  
If you suga's gotcha foolin' yourself  
Ch ch change  
If you life is kind of strange, get up and rearrange  
Make a change, change, change  
Make a change  
  
Don't you give a damn about what they say  
Ch ch change  
If you're slavin' for a dollar a day  
Ch ch change  
If you're loosin' every game that you play  
Ch ch change  
If your life is kind of strange, get up and rearrange  
Don't you give a damn about them

Just change  
[C-part]You look like a beauty queen  
Just trust in yourself  
Don't be no one else  
'Cause I believe that nobody  
Can keep you from just making a change  
[Chorus]If your baby's gone with somebody else  
Ch ch change  
If you suga's gotcha foolin' yourself  
Ch ch change  
If you life is kind of strange, get up and rearrange  
Make a change, change, change  
Make a change  
Oh oh oh  
Oh oh change  
If you're slavin' for a dollar a day  
Ch ch change  
If you're loosin' every game that you play  
Ch ch change  
If your life is kind of strange, get up and rearrange  
Make a change, change, change  
Make a change  
Ch ch change  
Ch ch change  
Ch ch change
