

# Judas Rising

## Judas Priest

White bolt of lightning came out of nowhere  
Blinded the darkness created the storm  
War in the heavens vengeance ignited  
Torment and tempest attacks like a swarm  
Forged out of flame from chaos to destiny  
Bringer of pain forever undying  
Judas is rising  
Eternal betrayer ice cold and evil  
Taking no prisoners dark prince of the world  
Humanity trembles enslaving you sinners  
You can't beg for mercy for none will be saved  
The burden of sin echoes the prophecy  
Ascending from hell forever despising  
Judas is rising  
Their faith is revealed deceivers are crying  
By crucified steel evangelizing  
Judas is rising  
Judas is rising
