

# Tigerlily

## La Roux

Tonight out on the streets I'm gonna follow you  
Tell you all about a scene that you would kill for  
You're gonna love what's burning right in front of you  
But you won't see it by the light of the sun  
Come out Tigerlily, you're caressing me  
I'll take you up, I'll turn you on, I'll take your apathy  
I wouldn't lie to you blossom, won't you let it go?  
I'm gonna give you all you want and don't you know  
That you, I know you better than this  
I could be here when you call, I'll make you top of the list  
And in the crush of the dark I'll be your light in the mist  
I can see you burning with desire for a kiss  
Psychobabble all upon your lips  
They can sell it all they want but you cannot agree  
I don't like the taste of their morality  
You'll find your bread and your butter where you fake it  
And put your face in the gutter of a snake pit  
But our communication is telepathy  
What you give is what you get out of us naturally  
And we can wait 'til the shadow grows long  
And turn the page of a story that has long since found a home  
I know you better than this  
I could be here when you call, I'll make you top of the list  
And in the crush of the dark, I'll be your light in the mist  
I can see you burning with desire for a kiss  
Psychobabble all upon your lips  
Have you ever felt like you're being followed  
Or watched the ones that held your stare?  
Turned around to see who's behind you to find there's no one there?  
Lurking in the dark, there's someone who breathes you night and day  
There's a friend who wants so much more  
And if they can't have you they'll never let you walk away  
And in the crush of the dark I'll be your light in the mist  
I can see you burning with desire for a kiss  
And in the crush of the dark I'll be your light in the mist  
I can see you burning with desire for a kiss  
Psychobabble all upon your lips
