

We Write The Wrong

The Early November

I tried but why can't I
You can't see what I see
From you it's you
In all my life
You find the wrong
But I write it off
'Cause you write the wrong
Wait and see it all waiting
You can't see,
You're never gonna see
When you're not listening

To your own voice
In all my life
You find the wrong
But I write it off
'Cause you write the wrong
We're turning down
In all my life
You find the wrong
But I write it off
'Cause you write the wrong
You write the wrong (11x)
