

Hello Oskar

Our Lady Peace

Over there well he's wondering
Is Oskar there, is Oskar all right
Was never cool not allowed to fit
He never knew what he liked And over there he's the Rubberman
A rubber dress with Betty Page eyes
Was never cool he'll never settle down
He's not allowed to drive He'll build a bridge and walk around
Don't ever call him dumb
He's not that bright, he's not that bright
And he's not him, not him And I can take you somewhere
Somewhere to unwind
You're tangled up in all this shit
And I will make you mine, and I will make you mine There's nothing wrong, he's a superstar
A taximan and a young Einstein
Was never cool and he never settled down
He was not allowed to drive He'll build a bridge then walk around
Leave that boy alone
He's not that bright, he's not uptight
And he's not him, not himself And I will take you somewhere
Somewhere to unwind
You're tangled up in all this shit
And I will make you mine, and I will make you mine And I can take you somewhere
Somewhere to unwind
You're tangled up in all this shit
And I will make you mine, and I will make you mine
And I will make you mine, make you mine, mine, mine
Will make you mine, will make you And I can take you somewhere over
Mine, mine, mine
