Cry

Tiffany Evans

verse1:
gave you everything but it wasnt enough
cant believe how you neglected my love
[wish i wouldve seen]wish i wouldve seen you for who you was
[but i was just a fool]baby i was just a fool in love
chorus:
you say you found somebody new now you dont want me
hope she do the same thing to you
i hope that she makes you cry
cry [x15]
verse2:
never thought that we would be where we are
always thought that we would reach the stars
i guess you just werent capable of being truly faithful
but its all good cause i know who you are baby you
chorus:
you say you found somebody new now you dont want me
hope she do the same thing to you
i hope that she makes you cry
cry [x15]
verse3:
think of everything you put me through now imagine you in the same position with it being done to you
never thought that we would end this way
and im sorry babe but karma coming back in the worst way
i know the bigger thing to do would be just too forgive ya
but im sorry baby cause i aint ready too
now i hope you realize telling me all those lies is going to be the thing that makes you cry
cry[x15]
