

Unbroken

Tim McGraw

If I lived and breathed before you loved me, I don't recall
If I walked around at all, it was in bits and pieces
Of a jagged heart
You kissed me and every piece went back in place, every pain got erased
You held me up to the sunlight, now it feels like No one ever left me out in the rain
Cold words still remain unspoken
And I never got lost, spent years in the dark
You're here, now my heart's unbroken
When I see you smile feel my soul again
And I'm unbroken If I doubted the power of love, baby now I understand
I thank God for every day I wake up to the soft touch
Of your magic hands
In this world sometimes the only thing that's real is the way you make me feel
Babe, the changes day and night
I swear it's life No one ever left me out in the rain
Cold words still remain unspoken
And I never got lost, spent years in the dark
You're here, now my heart's unbroken
When I see you smile feel my soul again
I'm unbroken I still see the night, I fell into your eyes
And when we made love it felt like the first time No one ever left me out in the rain
Cold words still remain unspoken
And I never got lost, spent years in the dark
You're here, now my heart's unbroken
When I see you smile feel my soul again
I'm unbroken I'm unbroken, oh yeah
I'm unbroken No one ever left me out in the rain
Cold words still remain unspoken
And I never got lost, spent years in the dark
You're here, now my heart's unbroken
No one ever left me out in the rain
Cold words still remain unspoken
I never got lost, spent years in the dark
You're here, now my heart's unbroken
No one ever left me out in the rain
