# Young

## Hedley

I'm tired of waking up at five am,
My boss has lost his freaking mind again,
I'm getting so sick of this same routine,
And living out somebody else's dream,
Another zombie coming back to life,
Only 20 but I'm living like I'm 45,
Better burn out than fade away,
So come and have a drink on me,
We were young, having fun,
Used to party all night long,
Jumping up and down and getting crazy,
Banging our heads to AC/DC,
We were young turn it up, Used to party till we drop,
We wouldn't stop until we'd see the sun, we were young,
Young, Young, Young, Young
I'm tired of dressing up and stressing out (oh),
I guessing messing up's what I'm about (oh),
Kicking and screaming inside my head,
A white picket fence you blink your dead,
Another zombie coming back to life,
With the beat like a bomb and the blinding lights,
Better burn out than fade away,

So come and have a drink on me,
We were young, having fun,
Used to party all night long,
Jumping up and down and getting crazy,
Banging our heads to AC/DC,
We were young turn it up, Used to party till we drop,
We wouldn't stop until we'd see the sun, we were young,
(Hey, Hey, Hey)
Time is ticking they say,
(Hey, Hey, Hey)
Not a minute wasted,
(Hey, Hey, Hey)
It's better to burn out than fade away,
we were young,
Young, Young, Young, Young
We were young, having fun,

Used to party all night long,
Jumping up and down and getting crazy,
Banging our heads to AC/DC,
We were young turn it up, Used to party till we drop,
We wouldn't stop until we'd see the sun, we were young,
(2x)
