

# A Love From Outer Space

[radio fm4 sampler](#)

She loves me she loves me she loves me  
A love from outer space  
She loves me she loves me she loves me  
A love from outer space  
She loves me she loves me she loves me  
A love from outer space  
A love from outer space  
It's true oh I know where she's coming from  
Space is where we both belong  
Got to tell her in this song  
This time nothing can go wrong Take a ticket to ride this space express  
Meet the girl in the star dress  
A dress that I can never guess  
I just can't wait for her caress  
She comes from milky way  
She came to earth for my birthday  
We worked hard we nearly get to say hi Shalalalalalala hoo She loves me she loves me she loves me  
A love from outer space
