It All Comes Down To Love

Shawn Mullins

Talking heads talking to us on the television,
Silver screen preachers...and politicians
Say they got the answer, first they gotta's squeeze us,
Send a little money there's a tax on Jesus
Fix it with a prayer.
Fix it with a dollar
Does anybody out there ever wanna' holler?Oh, it all comes down to Love.Self-help gurus got a best-seller
Astrologists just telling us to take it interstellar
One-eyed hundred looking in a crystal
NRA says you better buy a pistol.Hey, it all comes down to Love.Made a little pile but it might cause cancer,
Just a cheap thrill when your looking for the answer.Suits on Wall St bank another million,
Dealers on the back street talking to your children,
You cry for help, but nobody will listen
You lie awake at night wonder and whats missing
Who can put an end to all your confusion,
Look into your heart for the one solution.Oh, it all comes down to love (repeat)
