

Sleep Well

The Away Days

When I wake you up and down again
I'd see your face so slowly
I've been calling an echo again
Never fave this saying so slowly
We're downWalking in the streets again
I'm sure how we are again
Every time you say that part
Is it new?
He calls two times
You call this lot away
Find out in your heartWalking on Columbia street
To ever find you and kill again
Is it time to move on string?
Has he called you "Hi" again?
You call this lot away
I found the truth but I wont just say
We're youngWalking in the streets again
I'm sure how we are again
Every time you say that part
Is it new?
He calls two times
You call this lot away
I found the truth but I wont just say
We're young
Find out in your heart
