

Suicide (Remastered)

Rage

I've been stumblin' through my years
All I had was sweat and tears
When I thought I had it made
I was always much too late And throughout my whole life
I've done everything wrong No way out, suicide
No way out, suicide I am losing all I get
For myself there's just regret
And my brain, it feels so ill
Am I waiting for the kill? What's the hell there on earth
That could keep me alive? No way out, suicide
No way out, suicide There's a shadow on my back
I've been taking the wrong track
Now I've gone a bit too far
I've begun a private war All I hate is myself
But I've shot someone else No way out, suicide
No way out, suicide No way out, suicide
No way out, suicide Suicide, suicide, suicide
Suicide, suicide, suicide, suicide
