

# These Days

## Joy Division

Morning seems strange, almost out of place  
Searched hard for you and your special ways  
These days  
These daysSpent all my time, learnt a killer's art  
Took threats and abuse 'till I'd learned the part  
Can you stay  
For these days?These days  
These daysUsed outward deception to get away  
Broken-heart romance to make it payThese days  
These daysWe'll drift through it all, it's the modern age  
Take care of it all now these debts are paid  
Can you stay  
For these days?
