Cover Me Up

Jason Isbell

Cover me up with black sheets
Black out my fire and get to me
Punish my soul
Seeping through burning wounds, i betray...
From selfish battles i lose
So smother me in this thick smoke
Let full fire burn
Let full fire burn
I'm trapt in flames
Let light take over me
Let light take its turn
This is the end
Of your tears and scars
Angel of death take my body
Lift me away from this heat
Fold your cold hands and bless my soul
How your tears put out the fire
Angel of death take my body
Lift me away from this heat
Fold your cold hands and bless my soul
How your tears put out the fire
Let the fire burn
Let the fire burn
I'm trapt in flames
Let light take over me

Let light take its turn
This is the end
Of your tears and scars
Swiftly taking me
Everything is already left behind
I'm lost in this deadly sleep
Your medicine's killing me
On these walls silhouettes fall and offset the flames
Time sets the pace of death
I'm gone by tomorrow
Lets put out the rage
We put on the fire
I melt in your pain

I'm melting in fire
Lets put out the rage
Lets put on the fire
I melt in your pain
I'm melting in fire
Lets put out the rage
Lets put on the fire
I melt in your pain
I'm melting in fire
Put out the rage
Put in the fire
I melt in your pain
I'm melting in fire
