

# Last Train To Satansville

## Swervedriver

You look like you've been losing sleep  
Said a stranger on a train  
I fixed him with an ice cold stare and said  
I've been having those dreams again  
In one dream, there's this girl I love  
And we dance every waking breath  
And in the other they've thrown me in a cell  
And they're trying me for her death  
I'm only young and young in love  
As I hold that girl today  
But I'm old and tired and in the cell  
And I've nigh on withered away  
You see my baby's gone away too long  
And I'm choking back the tears  
Disheveled star in a burnt out bar  
And I'm talking in my drink  
She promised me the world and more  
How could she do this to me?  
And now mind's tumbling down around  
But at least my eyes can see  
And those stars in the sky are for me  
So as this fagged-out tinsel town  
Waves so long to the sun  
I lay here calmly on my bed  
And the trigger of my gun  
And should that no good woman show up  
Dancing from a dream  
I'll squeeze it tight and not think twice  
And relish every scream
