

# Solidarity

## Angelic Upstarts

As the Polish workers fight to make their stand  
And behind them every honest working man  
In unity theres each other and your friend becomes your brother  
And in the tyrants heart will be a lesson learned Give them hope, give them strength, give them life  
Like a candle burning in the black of night  
We are with you in our hearts and in our minds  
And well pray for our nation through its darkest times I know that your hearts are made of the firmer kind  
And a riot stick wont kill your peace of mind  
You can fight with all the spirit that you possess  
Because your fight is a struggle at its best Give them hope, give them strength, give them life  
Like a candle burning in the black of night  
We are with you in our hearts and in our minds  
And well pray for our nation through its darkest times The tyrant has no smile on his face  
He knows that in his mind hes a disgrace  
The religion of union will take his breath away  
Our turn will come and we will have our say Give them hope, give them strength, give them life  
Like a candle burning in the black of night  
We are with you in our hearts and in our minds  
And well pray for our nation through its darkest times As the Polish workers fight to make their stand  
And behind them every honest working man  
Join hands with your brother and then you can help each other  
Watch the tyrants burn in the fire that they have built Give them hope, give them strength, give them life  
Like a candle burning in the black of night  
We are with you in our hearts and in our minds  
And well pray for our nation through its darkest times Give them hope, give them strength, give them life  
Like a candle burning in the black of night  
We are with you in our hearts and in our minds  
And well pray for our nation through its darkest times
